

PREM M

Machine Learning Engineer

+91 9566535909 — mprem5032@gmail.com — www.linkedin.com/in/m-prem — github.com/premwizard

Summary — Final-year student with experience in AI & ML projects, skilled in Python, ML algorithms, and LLMs. Strong in end-to-end development with Flask and React. Seeking to build scalable ML solutions for real-world challenges.

Education

- SNS College of Engineering** 2022-2026
B.E Computer Science and Technology CGPA: 8.16
- Annai Violet Matric Higher Secondary School** 2021-2022
HSC
- Brilliant Matric Higher Secondary School** 2019-2020
SSLC

Work Experience

- Full Stack Python Developer Intern — Code Infinite Technology, Coimbatore** Jun 2025
Gained hands-on experience in Python, Django, SQL, HTML, CSS, and JavaScript. Worked on end-to-end web application development.
- Machine Learning Intern — EMGLITZ Technologies, Coimbatore** Dec 2024 – Jan 2025
Applied Python and data visualization on real-world datasets; implemented ML algorithms to analyze patterns and improve accuracy.

Skills

- Programming Languages:** Python, JavaScript, HTML5, CSS3, SQL
- Machine Learning & AI:** Pandas, NumPy, Matplotlib, Jupyter Notebook, Ollama, LLM, LangChain
- Tools & Platforms:** Azure, AWS, Git & GitHub, VS Code, PowerBi, Tableau, MySQL, MongoDB
- Languages:** English (Fluent), Tamil (Native), German (Basic), French (Basic)

Projects

- AI Based Multi Services Healthcare** Jul 2025
Developed a healthcare platform offering personalized nutrition guidance, health record management and multi-service integration.
- Technologies:** Python, Flask, React.js, HTML, CSS, Ollama, Phi, NLP.
- Early Symptoms Detection System** May 2025
Developed a system to detect early symptoms from text, image, and voice inputs using AI models. Provided detailed predictions with disease name, confidence, urgency, and recommended actions to support early medical intervention.
- Technologies:** Python, Flask, HTML, CSS, Ollama, Phi.
- AI-Dietitian System** Dec 2024
Developed an AI-powered dietitian system that analyzes user inputs to generate personalized nutrition advice and meal plans, helping users maintain a healthier lifestyle.
- Technologies:** Python, Flask, React.js, HTML, CSS, Ollama, Phi.

Certifications

- Microsoft Azure AI Fundamentals
- AWS Educate Machine Learning Foundations
- Infosys Springboard – Prompt Engineering
- NPTEL Cloud Computing (12-Week)
- AWS Educate Introduction to Generative AI

Achievements

- 2nd Place – Leetcode Boot Camp – SNS College (2025)
- HackerRank – 4 Star in Python
- Completed "200 Days of Code" – LeetCode
- Selected for 2nd Round – Smart India Hackathon (2024)
- Conducted Figma and Design Thinking Bootcamp – SNS College (2024)
